Disclaimer

This presentation contains not only a review of operations, but also some forward looking statements about Fletcher Building and the environment in which the company operates. Because these statements are forward looking, Fletcher Building's actual results could differ materially. Media releases, management commentary and analysts presentations, including those relating to the February 2011 half year results announcement, are all available on the company's website and contain additional information about matters which could cause Fletcher Building's performance to differ from any forward looking statements in this presentation. Please read this presentation in the wider context of material previously published by Fletcher Building.

Market leading businesses

Strategic Objectives

- Grow our Australian and New Zealand building products and construction materials positions
- Develop Laminex and Formica into the World's leading laminates and panels business
- Maintain our strong market positions in New Zealand
- Pursue opportunities to transform our businesses

The Fletcher Building Way

- Decentralised organisation structure. Maximum autonomy and accountability with Business Unit General Manager.
- Small corporate office.
- Improve or eliminate underperforming businesses
- Have the right people in the right roles at the right time.
- A bias to action and do what you say you will do.

Fletcher Building acquisition criteria

- No. 1 or 2 market position
- Attractive industry structure
- Capable management available
- Attractive financial returns

Successful diversification has driven out-performance

Canterbury earthquake update

- Following first significant earthquake on 4 September 2010:
 - Fletcher Construction was selected to undertake project management of repairs for the Earthquake Commission (approximately 60,000)

 12 regional project management hubs established
 - Contracting with the Christchurch City Council on \$190 million of infrastructure repairs (joint venture with McConnell Dowell)
 - Opportunity for participation in land remediation work
- As a result of the earthquake on 22 February 2011:
 - Residential repair programme refocused on emergency repairs
 - Short term disruption to business trading with minor damage sustained; net earnings for FY11 to be \$14m \$24m lower
 - \$5m donated by Fletcher Building to Christchurch for rebuilding and housing projects.

Watertightness – fixing "leaky homes"

- PWC report to government of March 2010 estimated 22,000 to 89,000 dwellings affected
- Consensus forecast is 42,000 dwellings require repair, at a total cost of \$11.3 billion
 - 10 years for complete remediation
- New scheme proposed from second half of 2011:
 - Government to pay 25% cost of repair
 - Local council to pay 25% cost of repair
 - Home owner to pay remaining 50%, but supported by government guarantee of associated bank borrowing

Outlook 2011

Outlook for 2011 financial year continues to be mixed as to the pace of economic recovery, and the impact of the Canterbury earthquakes

New Zealand:

- Residential building activity not expected to improve in the second half.
- Commercial construction activity appears to have bottomed out.
- Infrastructure spending to dip in 2011 before growing in 2012.
- Canterbury earthquake repair work will be significant beyond 2011.

Australia:

- Residential building activity may weaken from 2010 levels.
- Commercial likely to remain subdued; infrastructure expected to continue at current levels.

Asia: continued growth expected in China and South East Asia.

North America and Europe: US expected to recover sooner, Western Europe likely to remain difficult.
