

Fletcher Building releases 2014 Sustainability Report.

Auckland, 27 January 2015

Fletcher Building today has released its Sustainability Report for 2014.

The report outlines Fletcher Building's commitment to sustainability and provides a number of case studies. The report demonstrates Fletcher Building's commitment to providing outstanding products and services that enhance built environments and improve quality of life, while also honouring and protecting our natural environments.

You can view the report at <http://www.fbu.com/sustainability/>
